

## New Service Farnham Integrated Care Centre

A new way to access same-day health care appointments is launching for patients registered at:

**Downing Street Group Practice  
Farnham Dene Medical Practice  
The Ferns Medical Practice  
River Wey Medical Practice.**

Same-day appointments will soon be provided at the new Farnham Integrated Care Centre based at Farnham Centre for Health.

Contact your practice in the usual way to book an appointment and you will be seen the same day at the new centre by a local GP, nurse practitioner or other relevant local health care provider such as a physio, who is most suitable to help you.

The new centre will:

- **increase access** to same-day appointments
- help you get the right care **more quickly**
- **relieve pressure** on GP appointments so that people who need to can have continuity of care and longer appointments
- help people to **avoid** making unnecessary trips to A&E

For more information visit your practice website or speak to a member of the reception team
