PRIVATE TREATMENT POLICY

Version:	Review date:	Edited by:	Approved by:	Comments:
V1	25.04.2024	Anne Green	Partners	

For patients who consult a private consultant;

Any medication prescribed during a private consultation must be issued by the private consultant.

This medication must be reviewed at least once by the private consultant.

Following the private review and if the patient is stable, the GP will **consider** taking over prescribing of the medication with a letter supporting the medication dose and frequency from the private consultant.
